# Message from the Executive Director

---

**"When women are leading we are doing so with passion-- we envision an inclusive community, where everyone's rights are respected"**

---

Dear friends,

warm greetings from our Margibi county office. I write to thank you for your unwavering support and commitment to helping us change lives one day at a time. Thank you for believing in our mandate, and mission.

For the past 8 years, we have done everything in our capacity to deliver on our mandate with strong code of ethics, organizational transparency, programmatic accountability, love for humanity, and respect for all.

At the beginning of 2022, we designed ambitious goals and challenged ourselves to achieve them. Because of those goals, we experienced a shift in our ways of working, and welcomed onboard skilled professionals to join our unique team. We strengthened existing relationships, and established new ones.

Thank you for holding down the fort and ensuring that we meet targets, while impacting hundreds of women, girls, families, and communities.

2022 was our most audacious year yet, and I can not put into words how proud I am. As we venture into 2023, I urge us to reflect on our challenges as much as we celebrate our wins. May our reflection help us to do better, be better, and demand better.

Sincerely yours,

Naomi Tulay-Solanke

## WHO WE ARE

**Community Healthcare Initiative is a registered non-governmental organization founded 2014 in Liberia. CHI prime mandate is to strengthen and promote healthcare, social services, women's Rights; child rights especially girls including persons living with disability and sexual minorities in Liberia.**

# WHO WE ARE

## MISSION

**Working in togetherness for socio-economic development in communities through strengthening their capacity and the implementation of the programs as well as health and protection interventions with participatory approach at all levels of the community to defeat poverty, and promote healthcare throughout Liberia.**

## VISION

***Access to Healthcare, freedom and dignity to everyone regardless race, ethnicity and sex, free of violence and human rights abuses.***

**160+**  
Communities

**7**  
Counties

**In 2022, we worked within 60+ town and communities in rural and urban Liberia. This is our second highest community visit yet.**

**We implemented projects within 6 of the 15 counties in Liberia; Montserrado, Gbarpolu, Margibi, Grand Bassa, Lofa, Rivercess, Bomi counties.**

**55K**  
Total persons reached

**In 2022, we touched more lives than we have ever done in 1 year. We served pregnant women, new mothers, adolescent girls, fathers, community leaders, duty bearers, policy & law makers, etc.**

**30+**  
Schools

**Through our outreach programs, SRHR clubs, and campaigns, we had several dialogues, conversations, and trainings with students in both rural and urban Liberia.**

# 36,249

**Total persons vaccinated**

In 2022, we vaccinated thousands of Liberians in Gbarpolu and Rivercess counties. 52% of all persons vaccinated were females. During this project, we worked alongside the Liberia Ministry of Health, International NGOs, and national and local CSOs to ensure that we reached some of the most remote communities. Despite our best efforts, hundreds of Liberians across the country remain unvaccinated.

# 40+

**Women groups supported**

As part of our women empowerment project, we supported 40 women groups with Seed-Grants up to \$1000. We paired the seed-grant with trainings on nutrition for mother and baby, family planning, access to justice, and community policing.

With the availability of the Seed-Grant, several women established businesses, and others collaborated to do small-scale farming of cash-crops.

**CHI is home to Liberia's first and only SRHR Clinic. Our SRHR Clinic use women-centered, youth-friendly, and right-based approaches to provide comprehensive SRHR healthcare, including abortion and family planning services.**

**849**

**Total number Persons seeking care**

**177**

**Total number of pregnant women**

**66**

**Total number of delivery performed**

# 6500+

Between April to May of 2022, we reached over 6500 person through community and school outreach.

# 25+

25+ businesses, and public & private entities including the Liberia Revenue Authority (LRA), signed an agreement committing to having sanitary pads in their toilets.

In Q1 of 2022, we launched and published a research based study on "**Abortion Perception In Liberia.**"

We also published 2 policy briefs on **Unsafe Abortion and the Liberian Law.**

# 7310+

**Persons reached**

We launched 2022 menstrual hygiene campaign both online and in-person. Our online campaign reach 7310+ persons by May 31st.

# 500+

**Sanitary pads distrubuted**

During the menstrual hygiene campaign, we distributed 500+ menstrual hygiene management kit to young women and girls across Montserrado county, Margibi county, and Gbarpolu county

**We want to thank our donors and partner for their commitment and support to our work. Our work at CHI would be almost impossible without you. We appreciate your dedication and willingness to change the world, one girl, one woman, and one community at a time.**
